 - staff kitchen areas, in shops, offices and other working environments;
 - By clients in hotels, motels and other residential type environments;
 - Environment type like : • Farm Houses • Bed and Breakfast.
- ❑ Only use the appliance in the way indicated in these instructions.
- ❑ Never use this unit near bathtub, shower, wash-hand basins or other containers with water.
- ❑ Never use this apparatus near water projections.
- ❑ Never use this apparatus with the wet hands.
- ❑ If, unfortunately the apparatus is wet, immediately withdraw the cord of the socket-outlet.
- ❑ Inform potential users of these instructions.
- ❑ Never leave the appliance unsupervised when in use.
- ❑ The appliance must be used only for its intended purpose. No responsibility can be taken for any possible damage caused by incorrect use or improper handling.
- ❑ Children and persons with disabilities are not always aware of the danger posed by the use of appliances.
- ❑ This device can be used by children aged 8 years and older and adults, with reduced physical, sensory or mental capabilities or lack of experience and knowledge, if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- ❑ Cleaning and maintenance must not be made by children without supervision.
- ❑ Keep the appliance and its cord out of reach of children aged less than 8 years of age when it is energized or cooling down.
- ❑ This device is not a toy, do not leave small children or people with disabilities to play with.
- ❑ In order to ensure your children's safety, please keep all packaging (plastic bags, boxes, polystyrene etc.) out of their reach.
- ❑ Caution ! Do not allow small children to play with the foil :
THERE IS A DANGER OF SUFFOCATION !
- ❑ From time to time check the cord for damages. Never use the appliance if cord or appliance shows any signs of damage.
- ❑ Never immerse the appliance in water or any other liquid for any reason whatsoever.

- ❑ Never place it into the dishwasher.
- ❑ Never use the appliance near hot surfaces.
- ❑ Do not operate the appliance with a damaged cord or plug, or after the appliance has been damaged in any manner.
- ❑ If the supply cord or appliance is damaged,
- ❑ it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
- ❑ Disconnect the power source cable before any operation of cleaning of maintenance and accessories assembly.
- ❑ Never use the appliance outside and always place it in a dry environment.
- ❑ Never use accessories, which are not recommended by the producer. They could constitute a danger to the user and risk to damage the appliance.
- ❑ Never use any other connector than the one provided.
- ❑ Never move the appliance by pulling the cord. Make sure the cord cannot get caught in any way.
- ❑ Never wind the cord around the appliance and do not bend it
- ❑ Ensure that the power cord does not come into contact with hot parts of this unit.
- ❑ Make sure the appliance has cooled down before cleaning and storing it.
- ❑ The temperature of accessible surfaces may be very high when the appliance is operating. Never touch these parts, of apparatus, to avoid burning itself.
- ❑ Make sure the appliance never comes into contact with flammable materials, such as curtains, cloth, etc...& the power cord and plug do not come in contact with water.
- ❑ Before cleaning, always unplug the appliance from the power supply and let it cool down.
- ❑ This appliance is not intended to be operated by means of an external timer or separate remote-control system.
- ❑ Always place the unit on a flat surface. Ensure, also, not to cover the device and not to put anything on it.
- ❑ Always remove the plug from the wall socket when the appliance is not in use.
- ❑ When using an extension lead always make sure that the entire cable is unwound from the reel. Use solely CE approved extension leads. Input power must be at least 16A, 250V, 3000W.
- ❑ Incorrect operation and improper use can damage the appliance and cause injury to the user.
- ❑ This device, designed for home use, complies with standards relating to this type of product.
- ❑ The appliance must be used and rested on a table or flat & stable surface.
- ❑ The item must not be left unattended when it is connected to main supply.

- The item is not to be used, if it has been dropped or if there are visible signs of damage or if it is leaking.
- Regarding the instructions for cleaning, thanks to refer to the below paragraph of the manual.
- This appliance is only intended for household use.

(*) **Competent qualified person** : after sales department of the producer or importer or any person who is qualified, approved and competent to perform this kind of repairs.

PARTICULAR WARNING FOR PRODUCT USE IN A BATHROOM

- Switch off when not in use, even if for a moment.
- Unplug it after use, since the proximity of water presents a hazard, even when the unit is switched off.
- Do not use this product while taking a shower or bath. Always unplug the device even close between 2 uses.
- When the unit is used in a bathroom unplug it after use since the proximity of water presents a risk, even when the power is off.
- To provide additional protection, in the electrical circuit supplying the bathroom, a residual current device (RCD) with a rated residual current not exceeding 30mA operation, is recommended. Consult your installer.

NOTE: A thermal fuse, is not a residual current device (RCD).

- Do not use this product while taking a shower or bath.
- Always unplug the unit itself between two closely spaced uses.
- For example: Stop the machine and unplug it if you drop it while you dry.

This new curling iron is the perfect tool to achieve suitable hair styling.

1. Take care to avoid contact between the hot surface of the barrel and the skin of the face and neck, or any sensitive body surface.
2. Only change brush attachment when the unit is unplugged and completely cool.
3. Unplug the unit between 2 uses, even close, when this unit is used in a bathroom.

Description

1. Tip of the looper
2. Heating Looper
3. Foldable Stand
4. Opening looper Handle
5. Body
6. Indicator light
7. On / Off Switch
8. Cable Rotating on 360 °.
9. Removable Brush

USE

- Unroll the power cord completely.
- Check that the tension in force in the country where you are corresponds to that indicated on the apparatus.
- Connect the apparatus in a correct socket-outlet, (and connected to the ground if the unit is Class I), to avoid any danger.
- Disconnect the power source cable before any operation of cleaning of maintenance and accessories assembly.
- Stand the appliance on a table or flat surface.
- The item must not be left unattended when it is connected to main supply.
- Never modify the appliance in anyway.

TO LOOP

1. Connect the apparatus in a socket-outlet in good state.
2. Set switch to ON position. Indicator light will illuminate, the tong will heat up very quickly.

NOTE : Make sure that your hands are completely dryer before plugging in. Never leave your curling tong on and unattended

3. Section damp or dry hair, and comb through before styling.
4. press the automatic curl release, & place curling tong midway up the hair section and spread hair evenly between spoon and barrel.
5. Gently TURN & slide curling tong down to hair ends.
To avoid crimped ends, make sure they are securely wound under the spoon in the direction of the desired curl. Remember always place the spoon on top of a section when making a curl you want rolled under ; place the spoon under the section when making a flip style.
6. Wind the hair up as far as you want it curled, being careful not to let the tong touch the scalp.
7. Hold in place for 5~8 seconds depending on the texture and length of your hair.
8. For tight, bouncier curls, roll less hair. for loose, free-flowing curls, roll more hair.
9. To remove curling tong press the automatic curl release and pull tong away.
10. To set the curl, do not comb or brush hair until it cools.
11. To turn off, Set switch on OFF position. The light will go off.

BRUSH ATTACHMENT

For softer waves and body use the brush attachment, slide the brush attachment over the tong. Do not touch the roller with your fingers => Risk of burn !
Separate a section of hair and wind around brush, hold in place for approximately 10 seconds and gently unroll. Allow hair to cool fully before styling.

CLEANING AND MAINTENANCE

Before cleaning switch off the appliance
Always disconnect the apparatus and to let it cool before cleaning.
Clean the outside of the apparatus with a sponge or a slightly wet linen.
Never plunge the apparatus in water or all other liquids !
Never use gritting, of metal brush or another cutting object.
Do not use abrasive cleaners.

STORAGE

-Ensure the hair looper is completely cool and dry.

- Do not wrap the cord around the appliance, as this will cause damage.
- Keep the appliance in a cool, dry place.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control. This apparatus is guaranteed 12 months starting from the date of purchase. The documents in proof of guarantee are :

- the invoice and
 - the filled and stamped warrantee plate (located on side or bottom of the gift box).
- Without these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or, replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee !

In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase.

The breakage of parts out of glass or plastic is, in all the cases, not warranted.

Defects on the accessories or the wearing parts (for example: coals of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay !

In the event of foreign intervention, the guarantee becomes null and void.

After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

SPECIFICATIONS

Power supply	220-240V~ 50/60Hz
Power	25W
Norm	Class II

The characteristics can change without preliminary preventing

To provide additional protection, the installation, in the electrical circuit supplying the bathroom, of residual current device (RCD) of rated residual operating current, not exceeding 30mA, is recommended. Ask your installer for advice.

NOTE: A circuit breaker is not a residual current device (RCD).

CAUTION: If the electric cable is damaged, it must be replaced by the manufacturer, his after-sales service or people with similar qualification, in order to avoid any danger. In order to minimize the risks of electric shock, In the event of breakdown, not to open the case but to call upon a qualified technician for repairs.

This apparatus satisfied EC directives, it was controlled according to all the European current directives, like: electromagnetic compatibility (EMC) and low tension (LVD). This apparatus was designed and manufactured in respect of the last safety regulations and technical specifications.

GENERAL INFORMATION

The symbol "OPEN BOOK" means a recommendation to read important things contained in the record.

The symbol "FLASH" is intended to alert the user to the presence of current within the device. Do not open it, it could constitute a risk of electric shock.

The symbol "QUESTION MARK" warns the user that important operating and maintenance are contained in the record.

The symbol "TUB / SHOWER" crossed out means to never use the unit in a bathroom, a shower in or near water spray. (IP20 Minimum distance 3M.)

The symbol "BIN" crossed out, abbreviation WEEE (Waste of Electrical and Electronic Equipment) means that at the end of life, it should not be discarded with household waste, but filed to the sorting of the locality. Waste recovery can help preserve our environment.

The symbol "STEAM" warns the user that steam can escape from the unit and to take all necessary precautions. (Risk of burns)

The symbol "CE" is the guarantee of compliance with harmonized European standards, voluntary, reflecting the essential requirements into technical specifications. These standards are not mandatory but are guarantees of compliance with essential requirements.

The symbol "RECYCLING" raise consumer awareness on the need to recycle its waste. Recycling is a process by which materials that compose a product in end of life (industrial or household waste) are reused in whole or part and will be returned to the initial production cycle.

The symbol "GLASS / FORK" means that the device is compatible and can come into contact with foodstuffs.

The symbol ROHS (Restriction of use of some Hazardous Substances) on the Environmental Protection, certifies that for each of the five hazardous substances • Lead • Mercury • (hexavalent) chromium • products for protection against flames PBB and PBDE,

the peak concentration is equal to or less than 0.1% of the weight of homogeneous material, and 0.01% for the 6th • cadmium.

The symbol "HOT WALL" warns the user that the walls of the unit can become very hot, and to take precautions as required.

The symbol "DOUBLE SQUARE" means a double insulated. A basic insulation and supplementary insulation. This device requires no connection to the mass of a protective conductor grounded. The materials are said : double insulation class II.

The symbol "MAN" means that the device can be used on the skin or human orifices. (Example: Thermometer).

The symbol "TRIMAN" indicates that the consumer is invited to dispose the product as part of a separate collection (eg recycling bin, waste, voluntary intake point).
