These standards are not mandatory but ensuring compliance with the essential requirements.

CLEANING AND MAINTENANCE

Before cleaning, always switch off the appliance, disconnect the apparatus and let it cool.

Clean the outside of the apparatus with a sponge or slightly wet linen.

The parts (removable) in contact with food like plate, bowl, forks, Spatula etc. can be washed in hot water with sponge and soft detergent or put in the dishwasher.

Never plunge the apparatus in water or all other liquid!

Do not use abrasive cleaners, gritting, or metal brush or another cutting object.

The blade can be cleaned under hot water, warm water and liquid detergent or in the dishwasher.

Caution : Take all necessary precautions when cleaning the blade because it is very sharp and can cause serious cuts !

TO KNOW ITS UNIT

1. Push Button
2. Motor unit
3. Lid
4. Blade unit
5. Glass bowl
6. Gasket

Item	Part	Function
1	Push button	To control on/off
2	Motor unit	Main unit , power source of appliance
3	Lid	safety protections during operation
4	Blade unit	Slices food (vegetable, fruit, meat) mud and stuffing after assembling with side blade unit, bowl and lid.
5	Glass bowl	Serving food and dishwasher clean
6	Gasket	Anti-slip

The advantage of your mini chopper

- 1) SS blade design make perfect chopper effect.
 - 2) Micro switch can control the chopper level easily.
 - 3) Motor overheat protection, good for safety use.
 - 4) Glass chopper bowl, healthy and easy cleaning.
 - 5) Detachable parts, easy cleaning.
- Change-speed gear box, smooth running, low noise and strong chopping

FIRST USE

Before first use, remove the device and all accessories and being careful with sharp accessories.

- Clean the apparatus according to the instructions in "Cleaning and maintenance" paragraph.
- Place the machine on a suitable flat, stable surface.

USE

- Unroll the power cord completely.
- Check that the tension in force in the country where you are, corresponds to that indicated on the apparatus.
- Connect the apparatus in a correct socket-outlet, (and connected to the ground if the unit is Class I), to avoid any danger.
- Disconnect the power source cable before any operation of cleaning of maintenance and accessories assembly.
- Never modify the appliance in anyway.

HOW TO USE

Before using, please clean all parts which will touch the food.

1. Take out the food chopper and accessories, use the food cleanser and water to clean the lid, main/side blade units, chopper bowl. Use wet cloth to clean the motor unit.
2. Put the anti-slip mat to the flat surface, then assemble the chopper bowl on it. Avoid knocking it by the other thing and keep it way from the children.
3. Assembling

a) Put the chopper bowl on the non-slip gasket. (Fig 1)

b) Fix the Blade unit into the blow shaft, then put the food. (Fig 2)

c) After putting the food, cover the lid as Fig 3.

d) Put the motor unit on the chopper lid, the blade unit handle is aligning with the middle hole of main unit.(Fig 4)

e) After assembling the appliance well, plug in the power code and press the switch, the appliance will start working. When the finger leave the switch, the appliance will stop running.

f) How to assemble/disassemble the main/side blade unit.

Assemble method: Put the side blade unit to the main blade unit (Fig 1 and Fig 2), and screw the side blade unit anticlockwise (Fig 3).

Disassemble method: Take out the side blade unit by clockwise from main blade unit.

Remark:

1. There are 2 anti-slip lines on main/side blade unit. If the 2 lines didn't align well it means you didn't assemble the main/side blade unit well.
2. If you didn't assemble the side blade well before using, the side blade unit may loose and touch the bowl or lid and hurt the human. Please use it correctly.
3. There is safety lock on the main unit. During operation, please lay the appliance flat and press the button strongly to start the operation, otherwise the appliance cannot be activated.
4. Meat food making method: can choose only single layer or double layers blades for your food chopper. Installed the blade into chopping bowl, removed the muscle, bone, skin of the meat food before processing, cut the food into 1-2 cm massive and put into the bowl. The processing food cannot exceed the maximum limit of scale line of corresponding meat food.
5. Connect the power supply, press the switch lightly, start to work. Don't run the appliance for more than 30 seconds continuously.
6. After processing, cut off the power. After the blade stopped running, move out the main unit and open the lid, remove the chopping blade, and take out the food with a spatula or chopsticks.
7. If the processing food stick on the bowl, please turn off the switch and cut off the power, use a spatula or chopsticks to scrape it off and then make the processing again.
8. If within 30 seconds haven't reached the effect you want, please loosen the switch and interval after 2 minutes again for processing, which is conducive to extend the product life.
9. **For each use, the consecutive operation time should not exceed 30seconds, The operation is carried out three times with a rest**

**period of 2 min during which the beef or meat is replaced.
Please let the unit cool to room temperature before performing
next operation cycle**

INGREDIENTS	QUANTITY	TIME
Onions	80 à 100g en quartier	5 à 8 secondes
Cooked Fruit for compote	60/80 g	8 secondes
Garlic	60/80 g	5 à 6 secondes
Biscuits	30 g	12 secondes
Cheese	50g	10/12 secondes
Almonds (without the hull) (sans la coque)	50g	10/12 secondes
Hazelnut (without the hull)	50g	10/12 secondes
Nuts (without the hull)	50g	10/12 secondes
Hard egg (without the shell)	3 œufs	4 à 6 secondes
Meat (5 à 6 pieces)	60g	8 secondes
Ham	60g	8 secondes
Maximum capacity	800 ml	

USEFUL TIPS

- 1 Make sure you put the blade in place before filling the bowl with food.
- 2 If the blade does not turn easily, immediately stop the machine, disassemble the parts and remove anything that prevents proper operation.
- 3 If the blades do not rotate at a normal speed, stop the unit and remove some of the ingredients.
- 4 For regular hashing, use pieces of the same size.

STORAGE

- Ensure the unit is completely cool and dry.
- Do not wrap the cord around the appliance, as this will cause damage.
- Keep the appliance in a cool, dry place and out of reach from children.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control. This apparatus is guaranteed 24 months starting from the date of purchase by the consumer.

The documents in proof of guarantee are: • The invoice and • The filled and stamped warranty plate (located on side or bottom of the gift box). Without

these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or, replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee! In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase.

The breakage of parts out of glass or plastic is, in all the cases, not warranted. Defects on the accessories or the wearing parts (for example: coals of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay !

In the event of foreign intervention, the guarantee becomes null and void. After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

SPECIFICATIONS

Power supply	220-240V~ 50-60Hz
Power	300W
Norm	Class II

Made in PRC

The characteristics can change without prior notice.

CAUTION: In order to minimize the risks of electric shock, In the event of breakdown, not to open the case but to call upon a qualified technician for repairs.

This device complies with EC directives, it was controlled according to all current European directives, applicable such as: electromagnetic compatibility (EMC) and low voltage (LVD).

This device has been designed and manufactured in compliance with the latest regulations and technical requirements for safety.
